ELENCO[®]
Learn by doing.[®]

Founded in 1972, Elenco has been delivering quality **STEM** learning toys for more than 50 years. Elenco's commitment to delivering quality toy experiences comes to life across three core brands; **SNAP CIRCUITS[®]**, **TEACH TECH[™]**, and **WEMAKE[™]**.

Elenco toys not only provide hours of play, but truly teach kids about how the world works. That includes learning how **STEAM** topics like electricity, engineering, and coding come to life in the real world. We inspire kids to learn while fostering curiosity, problem-solving skills and confidence.

SNAP CIRCUITS

®

**SNAP CIRCUITS® IS
WHERE LEARN AND PLAY COLLIDE®**

Launched in 2002, **SNAP CIRCUITS®** is the original **STEM** toy that invites kids to make electronic toys, sounds, lights, gadgets and more. No tools are required and the patented **SNAP CIRCUITS®** safety device, **Circuit Safe®**, provides a safe learning environment that truly fosters creativity, problem solving skills, and confidence.

AVAILABLE JULY 2025

*SNAP CIRCUITS® SOCCER SHOT

Soccer Shot is the ultimate STEM game. Kids not only will have loads of fun playing a tabletop soccer game, but they will also assemble and learn about the circuits that power electronic games. Two players compete to be the first to score 9 goals and win the match! One player aims and 'kicks' the ball while player two is the goaltender trying to make big saves! Additional features include a variable speed control, motions detector scoring sensors, a digital scoreboard and more.

The only question left is, who goes first?

UPC: 756619014449

7 56619 01444 9

SNAP CIRCUITS® SPY KIT

Activate your inner secret agent with hours of SPY Kit missions. Assemble working circuits to ignite your imagination and develop your spy skills. Create a working motion detector to protect your stuff, activate the voice changer to send cryptic messages, learn how trip wires work and shield your valuables with the vibration sensor. SPY Kit is not just a toy – it's a gateway to the fascinating world of spy gadgets and covert operations!

*SNAP CIRCUITS® BRIC LIGHT

Model SCBRLT1

Light up your brick creations like never before with red, blue and yellow light-up bricks. Take your brick building to the next level by integrating circuits and lights to develop 11 different builds. Create robots, vehicles, animals, structures, and more – you are only limited by your imagination. BRIC LIGHT is compatible with other popular brick building sets.

SNAP
BOARD
GAME!

7+

AVAILABLE

SNAP CIRCUITS® SNAP 2 IT®

Model SCBOARDGAME

SNAP 2 IT® is a family board game that integrates traditional board game play with the value of teaching foundational STEM principles of electricity. 1-4 players have so much fun, they don't even know they are learning. Play summary: a battery is placed in the middle of the playing grid, each player chooses their light - the first player to create a path of SNAP CIRCUITS® parts between their light and the battery, wins the game! SNAP 2 IT® and let's play!

8+

SNAP CIRCUITS® GREEN ENERGY LAB

Explore alternative Energy in a Snap and build 40+ projects that include making your own solar lights, exploring wind energy and rechargeable batteries, as alternative sources of power.

UPC: 756619014296

8+

SNAP CIRCUITS® SNAP FM® RADIO

Build, learn, listen, and dance! SNAP FM® Radio provides a valuable and practical beginner level STEM Toy experience for all kids ages 8+. This entry level SNAP CIRCUITS® STEM Toy kit provides hands-on understanding of how electrical components bring a radio to life.

UPC: 756619010229

Model SCP12

8+

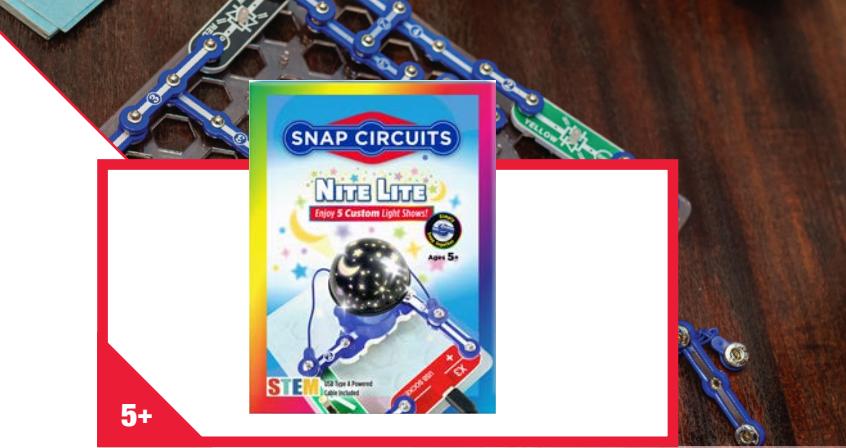

SNAP CIRCUITS® GAME PLAY

Make dozens of electronic gadgets that power light and sound, all from one box! Build custom circuits that power 20+ electronic games and 60+ total projects for hours of Game Play!

UPC: 756619014302

Model SCGMPLY

5+

SNAP CIRCUITS® NITE LITE

Model SCNITELITE

Kids feel a sense of accomplishment by playing with a toy that they built themselves. With SNAP CIRCUITS® Nite Lite kids can turn any dark room into a brilliant light show. Choose from 5 different light projections: a herd of dinosaurs, school of fish, moon & stars, under sea life, and spaceships & astronauts.

UPC: 756619014388

8+

SNAP CIRCUITS® FLIGHT DECK®

Model SCFLTKIT

The simple design and flexible application of FLIGHT DECK® creates hours of fun with five unique projects. Kids will build the circuits that launch paper airplanes, flying saucers, and balls. Additional projects include creating artistic patterns on a spinning wheel and learning about air pressure by levitating balls over a fan.

UPC: 756619014289

SNAP CIRCUITS® GAME PLAY

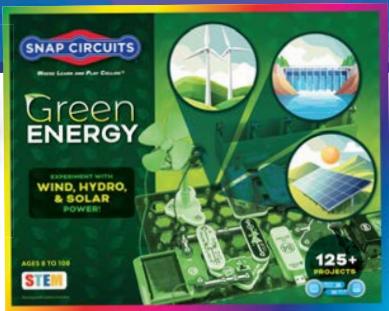

Model SCGMPLY

Make dozens of electronic gadgets that power light and sound, all from one box! Build custom circuits that power 20+ electronic games and 60+ total projects for hours of Game Play!

SNAP CIRCUITS® GREEN ENERGY

Model SCG225

Learn the basics of electronics and modern alternative energy. Explore clean energy concepts, like electric cars, and hand-generated power. Delve into different environmentally-friendly energy like geothermal, hydrogen fuel cells, wind, solar, tidal, hydro, and others. Perfect for environmentalists and future engineers!

UPC: 756619012841

125+ PROJECTS

8+

SNAP CIRCUITS® MYHOME

Model SCMYH7

Learn about circuitry, security systems, dimmer switches, automatic lights, alarms, motion detectors, fan speeds, appliance motors, generators, and much more!

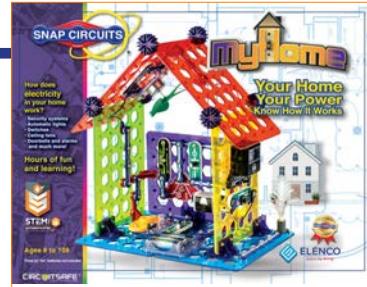

Build a house or city tower with real, working, 3-D circuits, just like the ones you use every day. With seven colorful base grids to make your structure your own, learn how electricity travels and powers your home.

TOYS**

MEET TEACH TECH™

THE JOURNEY IS IN THE BUILD

Made for kids who love to build! All **TEACH TECH™** products are Build-It Yourself. Remove the parts from the "parts-tree" and follow the instructions to put your design together piece-by-piece. For kids whose play-time includes the putting-together time.

With a core focus in **STEM** education, the **TEACH TECH™** product line is comprised of three categories:

1010110
11</CODE>
0111011

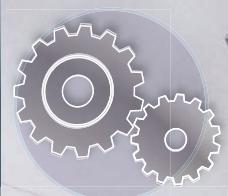

CODING: These build-it-yourself robots teach the fundamentals of **ROBOTICS** and **CODING**, while incorporating problem-solving and creativity.

Mech-5, Mechanical Coding Robot

GREEN ENERGY: There's no better time than now to start children on the path to learning basic concepts behind these technologies. All **TEACH TECH™** Green-Energy robots are powered by water, wind or the sun — no batteries required!

Meta.4, SolarBot.14, Tusk, Beach Runner, Rivet Rex

MECHANICAL-ROBOTICS: In the classroom or at home, Mechanical-Robotics have a big impact on **STEM** education. Build and learn about robots, while you have fun!

Zivko the Robot; HydroBot Arm Kit

RIVET REX

Follow the detailed instructions to build your robot. Rivet-Rex 12 solar powered kit contains unique components & parts to construct mechanical robots that operate like animals. Powered by direct sunlight. No batteries required.

UPC: 756619012742

200+ PARTS

Model TTG618

BEACH RUNNER

Explore the use of alternative energy with this environmentally safe, build-it-yourself non-toxic Beach Runner saltwater powered racer. Activate the magnesium fuel cell module with a saltwater mixture to power the on-board motor.

UPC: 756619013046

25+ PARTS

Model TTG754

SOLARBOT.14

Solar panels convert the sun's energy into usable electricity. Build 14 different robots, all powered by the sun! No batteries required. Models vary in size, PaddleBOT is 10" L / 4" W / 2" H

UPC: 756619012698

250+ PARTS

Model TTG615

TUSK

Tusk is ideal for a do-it-yourself science fair, after-school, or summer workshop project with the bonus gift of learning mechanical transmission and electrical motor theory.

UPC: 756619013053
